About me

Cybersecurity graduate with a strong foundation in networking and information security. Familiar with firewalls, proxy solutions, email security, and DLP. Completed CompTIA Security+ training and earned Fortinet NSE 1 and NSE 2 certifications. Interested in helping customers understand their technical needs, finding the right security solutions, and continuing to grow my technical skills.

Education

Bachelor's in Cybersecurity, Petra University

Oct 2021 - Feb 2026

Relevant Coursework:

Computer Networks, Information Security Fundamentals, Operating Systems, and Risk & Security Concepts. Completed class projects and presentations on cybersecurity and networking topics.

WORK EXPERIENCES

Cybersecurity Intern, MayaSoft

Sep 2025- Nov 2025

- Assisted with basic network setup and troubleshooting.
- Gained knowledge of firewall, proxy, DLP, and cloud security technologies.
- Learned how cybersecurity solutions are presented based on customer needs.
- Assisted with preparing technical information and presentations.
- Worked with the team to understand and support customer requirements.
- Gained exposure to different cybersecurity solutions and vendors

Projects

Virtual Firewall Lab — FortiGate-VM

Sep 2026

Built a segmented network on FortiGate-VM (FortiOS 7.6.7) over VMware Workstation, separating an internal employee network from an isolated guest network.

- Configured three zones (WAN, Internal, Guest) with DHCP, recursive DNS, static routing, and per-zone administrative access restrictions.
- Wrote firewall policies enforcing NAT-based internet access and full isolation between guest and internal segments, with logging on all denied traffic.
- Applied web filtering with static URL rules and SSL certificate inspection; troubleshooted connectivity across ARP, routing, DNS, and host-firewall layers during testing.

CERTIFICATIONS & TRAINING

Skills

- CompTIA Security+ Training
- Fortinet NSE 1 & NSE 2 & NSE 3

Technical Skills

- Networking
- Network Security
- Firewall
- Proxy
- Data Loss Prevention (DLP)
- Email Security

Soft Skills

- Communication
- Problem-solving
- Fast learner
- Teamwork
- Adaptability
- Time management
